

Cyndi Maryland

11/20/15

When my troop & I attended the event taking place the other night, we were not familiar with the diaspora! We now realize what role we play in ~~it~~ it. During the two day duration of this event, I have personally realized the immense importance of addressing the issues taking place both inside & outside of Africa. At this age I find it very important that I stay informed when it comes to such issues. Knowledge is power! I also find it important that I not only learn from our mistakes as a whole, but to learn from others mistakes. The building bridges project plans to educate young men & women & connect us with our homeland. to educate us & inform us!
